

Service fees now available on the Availability Page

This has been changed from the previous view to bring you the service fee on the availability page, and will be visible on the cost breakdown.

The option to search Including Tax & Fees is selected as default.

You can now toggle on the availability to see the fares only, and the fares plus taxes and fees (only available if searched with includes taxes & fees selected)

The screenshot displays the Aviate Availability Page. At the top, a horizontal list of flight options is shown with their respective fares. Below this, a 'Filters' sidebar on the left allows users to expand all filters, reset all, and select a ticketing deadline (MIN: 21 Feb 2020, MAX: 13 Aug 2020). The main area shows two itinerary options: EK0066 (STN to DXB) and EK0029 (DXB to LHR). A 'Price Breakdown' modal is open, showing the net fare, taxes, and service fees for one adult. The total price is £359.65, which includes taxes and fees. A 'Show taxes & fees' toggle is visible in the top right corner of the modal.

Flight	Fare
Most Popular - Cheapest	£374.66
Most Popular - Quietest	£386.66
