

Following the travel restriction that was imposed by the Maltese Authorities in mid-July wherein only fully vaccinated passengers are allowed to travel to Malta, tickets issued under KM tour operator fares and which are booked to travel up till 31 August 21, can be either fully refunded or rebooked FOC up till the 31 October 21, for travel later on and by not later than the 16th October 22 (i.e. last return date). Fare difference applies if rebooking has to be made in a different booking class (RBDs).

In the case of KM public fare tickets, Air Malta has a “special emergency rule” which can be accessed by travel agents in all GDSs, and which offers agents/clients the possibility of a free rebooking option up till the 31 October 21, for travel by not later than 31st March 2022 (i.e. last return date). Fare difference might apply. Consequently clients can be offered the possibility to travel later on, up till the 31st March 2022 latest, against a free rebooking, otherwise if clients holding Air Malta public fares decide not to travel then ticket refund will be subject to ticket terms & conditions.
