

Travel-Ready Center

Your tool to navigate travel restrictions.

Get cleared for travel directly through the **Travel-Ready Center** on the **United® app** or desktop.

Ticketed customers from UK can:

- Review local entry requirements
- Search COVID-19 testing requirements
- Store vaccination records
- Upload and validate test results

How it works:

Once their test is validated, customers will see a status indicator informing them that they are “travel-ready” and will receive their mobile boarding pass.

In the weeks and months ahead, we plan to expand availability to more U.S. cities and further enhance the app by adding access to international testing sites for customers flying to the USA from the UK.

Did you know?

The recently redesigned United mobile app was voted the “People’s Voice Award” from the 25th annual Webby Awards. We continue to make enhancements to create an all-in-one solution for our customers to seamlessly navigate their travel experience.
